## **DETAILED ACTION**

### ***Election/Restrictions***

Applicant's election with traverse of claims 18-33 in the reply filed on 16 August 2004 is acknowledged. The traversal is on the ground(s) that a prima facie case showing the distinctness of the groups has not been made. Upon further review of the applicants remarks regarding the groups the restriction requirement is withdrawn.

### ***Claim Rejections - 35 USC § 112***

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-33 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claims 1, 5, 18, and 25 claim merging information "in different manners" to determine groups of fault candidates for plural kinds of faults. As applicants invention is drawn to finding fault candidates for plural kinds of faults and the merging of the information is the essential step for determining the groups of fault candidates for plural kinds of faults, to claim merging "in different manners" is indefinite and fails to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Applicant needs to claim how the information is merged for each kind of fault.

Claims 20-21, and 28-29 claim merging information in a first manner, a second manner, and a third manner to determining the groups of fault candidates for plural

Art Unit: 2825

kinds of faults. This also fails to particularly point out and distinctly claim the subject matter which applicant regards as the invention as described above in claims 1, 5, 18, and 25. Applicant needs to claim how the information is merged for each kind of fault.
